

AP Computer Science	Util.java 1-Day Minor Assignment
Util Formatting Class	80 & 100 Point Versions
Assignment Purpose: The purpose of this lab assignment is to demonstrate knowledge of creating a class to format text.	

80 Point Version Specifics

Util Class is created. Formats text as Right Justified, Centered, Left Justified.

100 Point Version Specifics

Util Class is created on a separate .java file. Formats text as Right Justified, Centered, Left Justified, has a method for skipping lines, and to create a heading.

100 Point Version Specifics

Util Class is created on a separate .java file. Formats text as Right Justified, Centered, Left Justified, has a method for skipping lines, and to create a heading. Also includes checking for capitalization at the beginning of a string and punctuation at the end. Also formats numbers for currency.
